## **RV PREP CHECKLIST**

Make sure all the fluids are topped up, the batteries are working, the electrical system is causing no problems and that there are no leaks from the plumbing or holding tanks.

### **The mechanics:**

- Check and fill all the fluids.
- Test the battery levels (both the engine battery and the leisure battery).
- Check all tire pressures (including the spare).
- Check the electrical system - lights, inverter, etc.
- Check all the pumps - to the sink, the toilet, outside shower, etc.
- Test the furnace, air conditioner, microwave, etc.
- Test the fridge on all settings (with a three-way fridge test on all settings: electricity, 12V and propane).

### **Do a top-to-bottom of the inside of the van:**

- Wiping down all the shelves and cupboards.
- WD40 on any squeaky hinges.
- Make sure the mattress and linens are clean.
- Wipe down the dashboard, cup holder area, wash the linoleum floors and vacuum the carpeting.
- Clean out the glove box and then make sure everything needed is repacked there.
- Make sure the maps are packed and that the GPS is working.
